I want to give back to the county and town that is my home. I moved to Jackson because of the amazing trails and pathways, and I want to help continue to expand this important community asset.

Your qualifications for serving on this Board: *Additional information such as a resume may be attached.*

- * As an avid hiker, biker, and cross country skier, I am a daily user of the trails and pathways.
- * I have served as President of 'Trails Recreation Effingham County (TREC)' for 12 years. We have been very successful in working with the County, City, Illinois Department of Transportation, Park District, and the community in fund raising and building improved trails.
- * For 10 years, I have served as President of 'Ride Illinois', a statewide bike advocacy organization.

I love using the Jackson Hole pathway network and want to help sustain it. I think the pathways offer an environmentally friendly and healthy solution to the traffic congestion we are seeing from an increase in tourism, commuters, and local residents. Also, the pathways are simply fun to use. Providing a safe place for people to walk and bike away from cars provides a high level of enjoyment to everyone who uses them. I would like to help ensure our pathways are properly maintained, that they serve the needs of all users, and that people continue to enjoy all that they have to offer.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I am heavily invested in the Jackson community. Over the past decade I have written for nearly every local media outlet including Planet Jackson Hole, Jackson Hole News&Guide, Jackson Hole Daily, TetonGravity.com, as well as other national publications. I currently work for a communications firm that promotes brands in the outdoor industry. I think by giving people access to alternative forms of transportation we can have a happier, healthier community, and offer a better experience for visitors.

Date: 10/28/16

Have you served on this board before? No *If yes, how many years or terms?*

Why do you want to serve on this Board? *Additional information may be attached.*

Over the years I have enjoyed our pathways system greatly, and I'd like to give a bit back to this wonderful community amenity. Though many in the Valley use these pathways, I feel it's still underutilized by some, and I'd like to help promote its usage benefits (health reasons, reduction in traffic congestion, safety, freedom, etc). And though the current system is robust compared to other communities, there are a few missing links and improvements to be made, and I'd love to be a part in the planning process. I use the pathways and sidewalks on a daily basis (commuting, jogging, snowbiking, walking errands around town), and realize the important role they play in our community.

Your qualifications for serving on this Board: *Additional information such as a resume may be attached.*

- * Avid user of pathways and START, as I commute regularly from town to Teton Village (as of now 3x more miles cycled this year than by vehicle).
- * Valley resident for 19 years, understanding our community needs and challenges
- * Acquaintances with several current Pathways Task Force members
- * Firm understanding that the pathways system has many modes of non-motorized use, not just cyclists. Sidewalks around town and valley are especially important too!
- * Relationships with surrounding bike shops (over the years, I have raced/ridden for Fitzgeralds, Hoback and Team Jackson Hole cycling teams).
- * Longtime member and board on the Teton Trail Runners, enabling me to represent the running community.
- * Sound understanding of budgets (1. Finance degree Boston College 1996, 2. Manage a \$3.2million operating budget for our JHMR Lift Operations crew of 175 people).
- * Member of JHMR Leadership Team's Environmental Committee - I'm very passionate about preservation, and I have led this group on several occasions.

Other Comments: *Additional information may be attached.*

- * Recently completed two volunteer positions, so I have a free time to contribute to Pathways Taskforce (1. Teton Mentee Project - child I had been mentoring is older/no longer needed, 2. Hole Food Rescue - reduced to part-time duties).
- * Past member of Teton County Search and Rescue
- * Available on Wednesdays for monthly meetings

Email Address: carpenter.lisa@gmail.com

Return application by email to sdaigle@tetonwyo.org, or to the County Clerk's office, or fax to 739-8681

Why do you want to serve on this board?

My interest in this board has been influenced by two factors: my desire to contribute to our community and my love of our pathway system (and pathways in general) in Teton County.

Jackson is my forever home and I am deeply in love with it. I am inspired daily by the people around me who work tirelessly to improve everyone's quality of life. As the Community Service Coordinator for Jackson Hole Community School, I have had the opportunity to work with several organizations in Teton County. Through this process, I have learned a great deal about the issues we face as a growing community and am passionate about being a positive agent for change.

I use the pathways in Teton County on a daily basis, as the South Park Loop Rd. Pathway is a stone's throw from my home. I use the paths for a variety of reasons, including commuting to work, exercising my dog, getting to and from town, running, biking, and occasionally just walking out to the corner from my house to stare at the Tetons. I have a vested interest in seeing the pathways in Teton County be safe, maintained, and used by all.

In serving on this board, my hope is to aid in the following:

1. Develop pathways to ensure access to all Teton County residents
2. Ensure that current pathways are maintained
3. Encourage use of pathways
 - a. to reduce motorized vehicle/non-motorized vehicle accidents and injuries
 - b. to reduce the use of motorized vehicle travel
 - c. to increase health and wellbeing of citizens and visitors

Your qualifications for serving on this board:

My qualifications can be summarized by the following points:

1. I am a Teton County resident and homeowner.
2. I am an active member in our community.
3. I am an avid user of our pathway system.
4. I believe that pathways should be accessible to all Teton County residents.
5. I am the Community Service Coordinator at Jackson Hole Community School and wish to be a positive role model for my students.
6. I am an advocate for reducing motorized vehicle travel.
7. I am an advocate for reducing conflict between motorized vehicles and other users.
8. As an educator, I can aid in the transition from building pathways to educating the public about using pathways and doing so safely.
9. I can make informed decisions given my extensive background in physics and mathematics.

Why do you want to serve on this Board?

My family has a history in aviation, I'm a private pilot and I love the airport. I have a job that allows me flexibility, so I'm looking for ways to donate my time, meet new/interesting people and benefit the community.

Your qualifications for serving on this Board:

I buy, grow and sell small companies for a living, so I have nuts and bolts business experience.

I'm a private pilot, so I understand aviation.

I have some extra time that I'd like to use constructively.

I'm a team player and enjoy working with other people.

My family has a history in aviation.

Other Comments:

I look forward to meeting you or having the opportunity for an informal interview.

Thanks,

Ben

Name: Mary Gibson Scott

Name of Board: Airport Board

Date: October 26, 2016

Have you served on this board before? yes **If yes, how many years or terms?** one year

Why do you want to serve on this Board?
Additional information may be attached.

As a nearly 13 year resident, adjacent homeowner (Bar B Bar), and retired federal government employee, I recognize how important the airport is to the community and to the Yellowstone Ecosystem. I fully understand the unique relationship between the airport and Grand Teton National Park, and the need to collaborate on the multitude of issues facing both entities as well as the Town of Jackson and Teton County. Given my unique background, including leadership in environmental, community and aviation issues, I believe I bring a balanced perspective to the Airport Board.

Your qualifications for serving on this Board:
Additional information such as a resume may be attached.

Having served one year on the Airport Board, I have developed a strong and positive working relationship with all Board members and Airport staff. I have attended board meetings, and numerous committee meetings (art, transportation and concessions), and have helped to move the Airport forward on a number of issues. Most significant has been the improved public outreach that was done leading up to the wastewater line installation, assuring communications with adjacent HOAs and homeowners. I possess a unique background of federal park management, expertise in environmental compliance, and heightened awareness of aviation safety, which combine to provide a different and important perspective in airport board deliberations. Given my background as a career senior federal agency manager, and proven ability to collaborate and problem solve - with the airport, town, county and FAA - I possess a unique set of skills in addressing the challenges facing the airport.

Other Comments:
Additional information may be attached.

Having demonstrated positive contributions to airport board discussions and decision making during the last year, I look forward to deepening the working relationship with the board, airport leadership staff, and the Town and County.

Why do you want to serve on this Board?

I have substantial experience with natural resources requirements, challenges, and management. Much of that experience comes from my involvement with the Idaho National Laboratory, located West of Idaho Falls. I have also spent much of my career in long-distance commuting situations from our home in Alta, WY. However, for personal reasons I have recently decided to centralize my career interests much closer to home. Given that, I am very interested in contributing my energy, knowledge and experience in the public interest.

I feel too, that Public Service is a very important obligation that all of us should bear. In my case, my public service has included service in the Nuclear Navy, the Federal Government (U.S. NRC), and with the State of Illinois (Illinois Department of Nuclear Safety). Appointment to this Board would provide me a mechanism to continue this obligation.

Your qualifications for serving on this Board:

Please see the attached resume. Noteworthy and relevant qualifications include:

As U.S. NRC Project Manager for the restart authorization of the Three Mile Island nuclear power plant, I bore responsibility for assuring compliance with all Federal environmental protection laws and regulations.

As Vice President of ESH&QA at the Idaho National Laboratory (INL), I bore corporate responsibility for compliance with all Federal and State environmental laws and regulations. This included the National Environmental Protection Act (NEPA), and the Endangered Species Act, among others.

As a subcontractor to INL, I also managed the project to perform environmental sampling and monitoring of the INL land space, and surrounding areas. This included, for example, species surveys (e.g. bird and mammal counts and migratory patterns) as well as laboratory analysis of samples taken from both flora and fauna.

Other Comments:

We are long-time residents of Teton County, and consider Jackson to be our home town. We own our home and adjacent property in Alta, and also own additional property in Jackson. Our children went to school in Jackson and graduated from Journeys School and Community School. Our two sons live and are employed in Jackson.

Please feel free to contact me if you require additional information.

I look forward to our further discussions.

Name: Amy Girard

Name of Board: Natural Resource Technical Advisory Board

Date: 10/28/2016

Have you served on this board before? Yes **If yes, how many years or terms?** One partial term

Why do you want to serve on this Board?

Additional information may be attached.

Private land development represents one of the greatest threats to natural resources in Teton County. Unlike our public lands, where public input is part of development, private land development is regulated by elected officials and county planning staff. The Natural Resource Technical Advisory Board (NRTAB) is one of the few links between private land development and a public input process. NRTAB can provide meaningful scientific support to Teton County to ensure the conservation of natural resources is valued during the development of private lands. This will enable the county to use the best available science while creating a fair and transparent process during the development process.

I have been serving on this board for the past year and I feel we have made real progress on the Focal Species Habitat Project. I would like to continue working with the great team we have and to see this project through to the end. I have a lot of faith in the board and our direction and believe we will have a product that is worthy of the amazing place we live and work in.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

Master of Veterinary and Animal Science - 2015 - University of Wyoming
Bachelor of Science in Fisheries and Wildlife Management - 2003 - Michigan State University

I have fourteen years of experience in biological sciences including seven years in Wyoming.

Please see my C.V. for details

Other Comments:

Additional information may be attached.

I believe I stand out as a candidate for this position because I understand the complex natural resource issues in Teton County, including the obligation to balance human needs with natural resources. I appreciate what makes this area special, and I am committed to the conservation and management of it's natural resources while understanding the unique recreational and agricultural issues at hand.

Name: Renee Seidler (Wulff)

Name of Board: Natural Resources Technical Advisory Board

Date: October 27, 2016

Have you served on this board before? Yes

If yes, how many years or terms? 3 years, 1 term

Why do you want to serve on this Board?

Additional information may be attached.

My first term of service on the Natural Resources Technical Advisory Board (NRTAB) is coming to a close in December, 2016. The NRTAB is currently at a critical stage in development of the Focal Habitat Features project, of which I have been a part. I believe that my contribution on this board is at a critical juncture. The Town and County have hired a consultant (Alder Environmental) to proceed with an improved approach to creating a product that Teton County Planning and Development urgently needs in order to update Land Development Regulations. Keeping the NRTAB team as consistent as possible while we all complete this task is important. I have been urged both by my NRTAB colleagues and by Teton County Planning staff to continue my service on this board so as to minimize disruption of the continuity of focus and direction in the work we have been doing. I recognize the importance of my continued service at this point and would be happy to be re-appointed to serve the Town and County in this manner.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I am a highly qualified member of the NRTAB board, especially considering the current focus of NRTAB. I have a Master's Degree in Wildlife Biology from Utah State University and have been an Associate Conservation Scientist for the Wildlife Conservation Society for 8 years where I focus on the effects of anthropogenic development on wildlife, ungulate migration, road ecology and large carnivore interactions. I have lived in the Teton County region (Wyoming and Idaho) since 1997 and have a deep knowledge of our local natural resources. Specifically, since the focus of the NRTAB has been to advise on the creation of a Focal Habitat Features tool for use by Teton County Planning, I am an asset to the County on this board because of my education, research and conservation work on local wildlife and ecological threats. I extensively utilize spatial modeling techniques in my work at WCS, which is very relevant to the current work with NRTAB. I support the work that the current consultant, Alder Environmental, is doing for the Town and County and would like to continue to work with them on the County's behalf. Please see my attached resume for a lengthier review of my qualifications.

Other Comments:

Additional information may be attached.

In full disclosure, I am overcommitted regarding volunteer services in our communities. That said, I am able to, happy to and feel it is my duty to continue serving on the NRTAB at this critical point until the Focal Habitat Feature project has concluded, scheduled to be complete in March, 2017. At that point, I will need to step away from my service with the NRTAB.

Name: Timothy Schutz

Name of Board: Natural resource Technical Advisory Board

Date: 10/26/2016

Have you served on this board before? No

If yes, how many years or terms? 3 years

Why do you want to serve on this Board?

Additional information may be attached.

I think I would be an integral piece to the board in shaping future policies regarding natural resources. I have a very large passion for natural resource management and would like to dive into other realms besides agriculture that are affecting our community. With saying that my main focus is sustainable agriculture and I hope to really bring my knowledge to the tables.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

B.S in Natural resource Management with a focus in sustainability from Paul Smiths college.
(Main education was in sustainable forest management and sustainable agriculture)
5+ Years working with sustainable agriculturalal.
Future graduate of the Conservation Allaince Leadership Program
Certified In Permaculture Design

Why do you want to be on the board:

I never realized how important the Parks/ Rec. department is to a healthy community; until my wife and I began raising our granddaughter five years ago ; when as a family we began using the services being offered,until then,I just took things for granted. The parks, playgrounds, swimming pool, basketball courts, baseball, soccer etc. They were just there, in reality nothing is just there ; parks/rec. is a complex well organizes governmental origination.

Without the staff and facilities of the Parks/Rec department my job as a good parent would have been very difficult. During the last five year Roxy has learned to swim, was a member of the stingrays, play soccer, does gymnastics and lest I forget kid's /Coulter club's.. All I had to do was drop her off and let the experts do the training,doesn't get better than that, how fortunate.

I would like to give back to the community that gave our family so much at such a REASONABLE cost.

Your qualifications to be on the board:

Four years ago I applied for the board and didn't get selected, but as I was leaving the interview a commissioner asked me if I had ever been to a board meeting,my answer no. For the next seven months I attended board meetings, reapplied and was chosen. Those seven months made me an expert on board meetings,not on being a board member. It took me two years to grasp all of the complexities and nuances of that position. This last year has been exciting, because along with other board members we have been able to address many issues, which I now better understand , encountered in running the parks/rec. department. I hope I am given the opportunity to put the knowledge and relationships I have acquired over the last three years, to make my next three years as a board member productive.

Other comments

My construction background helps me understand maintenance and construction issues. As the parent of 10 year old,who benefited greatly from Parks/Rec center programs,I have feel of children issues which help me in evaluating programing. Perhaps,most important, I know to listen to other points of view before making a decision.

My sport is swimming and gives me a opportunity to see what goes on at the Rec Center, I have always been impressed with how it is run and the profound impact it has on the community. To see 6 month old baby's and their parents swimming together is impressive. I didn't learn to swim until I was 16 Roxy learned at 5.

Latinos and Anglo,s learning together,so many after school programs teaching young people how become healthy and active adults. I wish when I was young I had those opportunities. I can't change my past but I would like to help shape the future of the children of Teton County.

As a senior I am aware of the wellness issues and programing facing our senior community.

Why do you want to serve on this Board?

Additional information may be attached.

My family and I are avid user of TC Parks & Rec. I want to help strengthen and further its mission and services.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I have been a part of the Teton County community for 12 years and plan to continue my life here for years to come. Throughout my personal and professional life I have established policies and procedures based on research and always consider the pros and cons of certain issues. I have managed programs and organizations to run efficiently and effectively. I have experience in Human Resources management that include hiring, evaluating, firing, and supervising staff. I have developed and maintained agency mission, vision, values, and goals and I have experience writing and caring out strategic plans.

Name: Shawn Meisl

Name of Board: Parks and Recreation Board

Date: October 25, 2016

Have you served on this board before? No *If yes, how many years or terms?*

Why do you want to serve on this Board? *Additional information may be attached.*

Population growth in Teton County and changes in the composition of our locals and part-time residents affect public spaces including parks, the recreation center, winter trails, and summer access points for boating and picnicking. The County/Jackson Parks and Recreation Board meetings span diverse geographies, populations, and activities. I am most interested in the intersection of our community - where indoor and outdoor physical fitness and classes meet community gathering spaces. It is at this junction that we form friendships and build a functional community.

The Recreation Center provided my two sons with indoor play and fitness when they were growing up, and much needed summer fun while I worked. We explored all of the parks, discovering new friends along the way. I would like to give back to the entity that helped me raise my family here in the valley.

Your qualifications for serving on this Board: *Additional information such as a resume may be attached.*

I have a background in fundraising and development, having worked for many local non-profit organizations in the valley, including Grand Teton National Park Foundation. I am a part-time employee of Jackson Hole Public Art and a grants consultant to non-profit organizations. Recent art-based projects have involved local parks, and activation of new spaces. These projects make me aware of burgeoning park use and changes our public spaces have experienced since I moved to Jackson 16 years ago. I raised two sons in the valley who used the Recreation Center frequently, and participated in Parks & Rec programs in the summertime. Several years ago, I was in Boston for two years and worked for the Rose Kennedy Greenway Conservancy, the steward of a 1.5 mile linear urban park in downtown Boston. I raised funding for public art, 360 annual events, farmers and artisan markets, horticulture, and youth programs. Above all, I care about our public use spaces and it would be an honor to serve on the joint County/Jackson Parks and Recreation advisory board to help guide these amenities into the future.

Other Comments: *Additional information may be attached.*

My resume is attached to the email indicating my interest in serving. Thank you for your consideration.

Name: Shelby Read

Name of Board: Parks & Recreation Board

Date: October 28, 2016

Have you served on this board before? NO

If yes, how many years or terms? N/A

Why do you want to serve on this Board?

Additional information may be attached.

I fundamentally believe in supporting and giving back to institutions that I receive benefits from. I have gone to many fitness classes at the rec center, used the pathways, and used park shelters for many personal and professional events. I want to serve on this board because Parks & Rec is integral to the quality of life that we have here in Teton County, and I believe that I have experience that can aid in keeping this vital resource robust and accessible for all.

I understand that budget cuts are affecting Town and County budgets all over Wyoming, and this is likely the forecast for the next few years. It is important to assess what programs are needed the most, but also, think about how we can work with other agencies to provide continued programming. I love that Parks & Rec has collaborated with educational organizations to offer affordable afterschool options for our community. This is the kind of thinking that excites me to work for this board.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I am currently the Executive Director at a local international education non-profit called InterConnections 21 (IC21). I have to draft and manage our organizational and program budgets, prepare reports and data for both the grants we apply for as well as for our board meetings, and I also bring the perspective of a 30-something. In addition, I am fortunate for the experience of having worked with children/students for over 10 years. A handful of the organizations that Parks & Rec is collaborating with, I have worked for, or with, in my current position. IC21 is focused on educating our community about critical global issues, and it is with that same perspective that I would approach the Parks & Rec board. I want to focus on conserving resources, and sharing with the community about all of the opportunities and fun that Parks & Rec brings to the residents of Jackson/Teton County. I want to continue to make sure programs and facilities are accessible and equitably for all residents of Teton County.

Other Comments:

Additional information may be attached.

With this election season nearly over, I have to say that I have been inspired by many of the candidates. They are all working so hard to get elected, and if they are then they continue working so hard for our community. I deeply respect what they do for their constituents, but I do not have the constitution to be a politician! Serving on a county/town board IS a way for me to contribute and to be actively involved in my community (without running for office)!

Name: Stephanie M. Thomas

Name of Board: Parks and Recreation Board-Joint Board

Date: 10/28/2016

Have you served on this board before? NO

If yes, how many years or terms?

Why do you want to serve on this Board?

Additional information may be attached.

As an active community member I would like to be involved in the Parks and Rec board for a number of reasons. First of all, my first job when I moved to this valley was for Parks and Rec; I've been tied to the organization for the past 15 years and feel as though it would be a great time to give back to this organization. Second, my background in recreation, education and non-profit management seems like a great fit for a board that is involved so greatly in all three areas. Lastly, I think the future of our parks, our recreation center, and the classes/events that occur through Parks and Recreation are central to many people in this community. As a resident, mother of young children and someone involved in many aspects of parks and recreation I believe my perspective would be helpful for looking at the future this board and the organization as a whole.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I've been a resident of Teton County, WY for the past 15 years and parks and recreation has in some capacity been part of my life on a daily basis. From using the parks, to taking classes, to enrolling my children in after school care--Parks and Rec is important to who we are as community members and residents. For the past 6.5 years I have served as the Executive Director of TCSAR Foundation, giving me the experience to work with a highly capable and productive board--something that will serve me well on this board. Previous employment includes Friends of Pathways, Teton Science School and TCSD#1--all organizations that work closely with and around Parks and Recreation. I have energy and passion for our parks and recreation program and would like to commit to helping shape the future of the organization.

Name: Laine Potter

Name of Board: Parks & Recreation Board

Date: October 28, 2016

Have you served on this board before? No

If yes, how many years or terms? N/A

Why do you want to serve on this Board?

Additional information may be attached.

As a member of the conservation team at the Jackson Hole Land Trust, my professional life focuses on one aspect of public and community value - scenic, open space, and wildlife habitat protection. This fulfilling work would be greatly complemented by the opportunity to also serve the people that make the community such a special and vibrant place. The numerous health benefits provided by Parks & Recreation, both physical and mental, both tangible and intangible, are something for which I care deeply; I would be honored to positively impact public health through serving on this board.

I also believe that more young professionals in the community should take the opportunity to be represented in local policy making systems and decisions. For many young professionals that call Jackson home, the amazing resources provided by key decision and policy makers played a huge role in their decision to end up here. As an avid user of all that Parks & Recreation has to offer, I personally feel connected to the places managed by Parks & Recreation and am excited to help facilitate their maintenance, growth, and longevity for future generations. I have been actively involved in adult sport leagues, exercise programs at the Recreation Center, and am a regular user of numerous parks available across the county.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

My work at the Land Trust includes daily interactions with a variety of diverse stakeholders. I've forged relationship with these individuals, organizations, and groups, which has allowed me to understand the spectrum of backgrounds and perspectives across the community. Jackson is fortunate to have a wide range of citizens interested and invested in community issues as well as local government policies and services. My profession has afforded me the opportunity to effectively collaborate with a team and partners, listen to understand diverse viewpoints, and reach a broad audience.

Please see attached letter of recommendation.

Name: Elizabeth L. McCoy (Beth)

Name of Board: Parks & Recreation

Date: October 28, 2016

Have you served on this board before? No

If yes, how many years or terms? N/A

Why do you want to serve on this Board?

Additional information may be attached.

In Jackson Hole, you're blessed with proximity to two of the country's greatest national parks. But, it's also important to be blessed with wonderful, engaging and well maintained local parks, those green spaces and gathering places for the people who live and work here throughout the year. With almost all of the attention now on housing and transportation, I'd like to ensure that we continue to provide and to enhance the numerous services associated with Teton County Parks & Recreation. Parks can help build community, and parks can help sustain community. And no matter how much the area grows and changes, it seems that we want to remain a community, so having parks advocates on the Parks & Recreation Advisory Board makes sense. The mission of the National Recreation and Parks Association, which we closely partnered with during my time at PlayCore, is to "to advance parks, recreation and environmental conservation efforts that enhance the quality of life for all people." I'd like to serve on our local Parks & Recreation Advisory Board in support of such a mission, and in support of Jackson Hole.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

My resume is included for further review. My key qualifications are my general business, strategic planning, project management and sales / marketing / customer service experience. Both my educational and work backgrounds demonstrate that I bring customer, competitor and market insights to the forefront to improve overall decision making. In addition to being customer focused - helping determine and deliver those products, programs and projects that meet the customers' needs, I'm comfortable with data and analytics, I'm results and outcomes oriented and I'm collaborative in my approach to problem solving. While this would be my first board role, I've worked on many cross-functional teams, planning and advisory committees and consultative engagements, I've worked in policy development and government relations, and I've worked with capital and operating budgets.

Other Comments:

Additional information may be attached.

I'm a new member of the community, having settled into my home and business over the past year, and I'd like to get more involved as a community volunteer and community leader. And, although "new," I believe I have the genuine interest, proven skills and strong work ethic to add value early on and throughout any service tenure.

Name: Frank Lane

Name of Board: START Bus Board

Date: October 19, 2016

Have you served on this board before? YES

If yes, how many years or terms? Since 2004

Why do you want to serve on this Board?

Additional information may be attached.

As the current Board Chairman, I have served on the START Bus board for the past 12 years. I am still the only board member to have worked as a START Bus driver (2002-2004) and I believe this allows me to have a broader understanding of the START Bus system. Many years ago, the START Bus Board, the town and the county began the process of building a much needed START Bus Facility to house our bus fleet, public works garage and employee housing. I have been involved in this process since day one, currently sitting on the Ownership Review Committee, and I would very much like to see this project through to its completion.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

12 years of START Bus board experience and steadily growing responsibilities on the board of which I am currently the Board Chairman allows me to mentor new board members and provide a great breadth of knowledge about county transportation issues. I am an active member of our community, serving on many local and state boards (i.e. CES, Rotary Lunch, Jackson Fire Association) and volunteer organizations (i.e. Fire Dept, ELKS Club, JH Lacrosse) and would like to continue to give back to the community and its citizens.

Other Comments:

Additional information may be attached.

I feel that a mix of experienced and new board members is a great way to ensure that historic perspective and new thoughts are shared. With the community identifying transportation as a high priority, we need board members who share this vision and have the knowledge and desire to work towards reducing traffic congestion and improving our quality of life in Teton County.

Name: Samuel Petri

Name of Board: START Board

Date: October 27, 2016

Have you served on this board before?

If yes, how many years or terms?

No

Why do you want to serve on this Board?

Additional information may be attached.

The START bus system is perhaps the best solution to Teton County's traffic congestion problem and its housing problem. I want to help guide a transportation program that services the community's needs, the needs of tourists, and the needs of commuters. If we can increase ridership by offering exceptional service, we can decrease traffic without having to build more roads. We can also help connect our outlying communities that will increasingly become where people live, as Jackson home prices continue to rise, as land becomes more scarce.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I am heavily invested in the Jackson community. Over the past decade I have written for nearly every local media outlet including Planet Jackson Hole, Jackson Hole News&Guide, Jackson Hole Daily, TetonGravity.com, as well as other national publications. I currently work for a communications firm that promotes brands in the outdoor industry. I think by giving people access to alternative forms of transportation we can have a happier, healthier community, and offer a better experience for visitors.

Why do you want to serve on this Board?

Additional information may be attached.

I want to help the community, which appears to be hitting a point where traffic is hitting the capacity of the roadways we have. I believe an effective public transit system is the best avenue for reducing congestion, while simultaneously avoiding building wider roadways, especially in commuting corridors. I want to be a part of making our town and county an effective community and believe transportation is a huge part of that.

Your qualifications for serving on this Board:

Additional information such as a resume may be attached.

I'm a software developer by day. I'm highly analytical and problem solving is often a large part of my job. I believe in data driven solutions, as well as using technology effectively to help both increase ridership and decrease user confusion.

I've lived in major cities with large bus systems and have been a bus rider for most of my life.

My resume can be found here:

Email Address: scott.horn@jacksonhole.com

Alternate Telephone #: 307 690 1920

Occupation/Employer: Jackson Hole Mountain Resort

Why do you want to serve on this Board?

I continue to be a strong advocate for transportation initiatives in the region. My service on the START board has been both challenging and rewarding during my tenure and I think at this point in time the region is at a key juncture regarding transportation. The community needs volunteers who understand the issues and can address challenges without a great deal of time needed to "get up to speed". Additionally my position with JHMR allows me a unique understanding of the transportation needs of Teton Village from both an employee and guest perspective.

Your qualifications for serving on this Board:

My past START Board of Director service is a key qualification. Additionally in the late 1990's I served on the Teton County Housing Authority Board. For 23 years I have served our community as a volunteer and as corporate officer for the largest employer in the county.

Experience in effectively coordinating and operating in both private and public organizations.

Other Comments:

A key time for the community, I hope I can help lead the transportation efforts.

Application for a Volunteer Board

Date: 11/5/16

Name of Board: START Bus Board

<i>Applicant's Name:</i> Susan Mick	
<i>Mailing Address:</i> PO Box 1450, Jackson WY 83001	
<i>Residence Address:</i> 355 Ely Springs Rd.	<i>Daytime Telephone #:</i> 307-413-5066
<i>Email Address:</i> smickenator@gmail.com	<i>Alternate Telephone #:</i>
<i>Occupation/Employer:</i> teacher/self	

Why do you want to serve on this Board?

I believe in public transit as one solution to alleviate road congestion and I have watched our START Bus system grow over the last 30 years to help serve our regional needs. I would like to contribute my time and effort to continue to enhance methods of moving residents and tourists around our valley efficiently and effectively to reduce the need for individual automobile trips. This reduces carbon emissions and traffic, empowers residents without vehicles (including the young, elderly, and disabled), and slows the need to build bigger roads preserving our wild lands and values.

Due to work scheduling conflicts for the last 15 years, I have not been able to give back to my community by serving on a board. I now have the time and energy to devote to this board and would be honored to do so.

Your qualifications for serving on this Board:

- math educator in Teton County for 13 years with Master of Education and B.S. in Resource Development (energy emphasis)
- former energy conservation analyst
- former Recycling Center board member
- original Pathways task force member (way back!)
- excellent communication and technical skills
- great attention to detail
- conscientious and willing to work to get a job done
- strong collaborator and team member
- listener

Other Comments:

Thank you for considering me for this board position.
