

WHAT IS PROPOSED

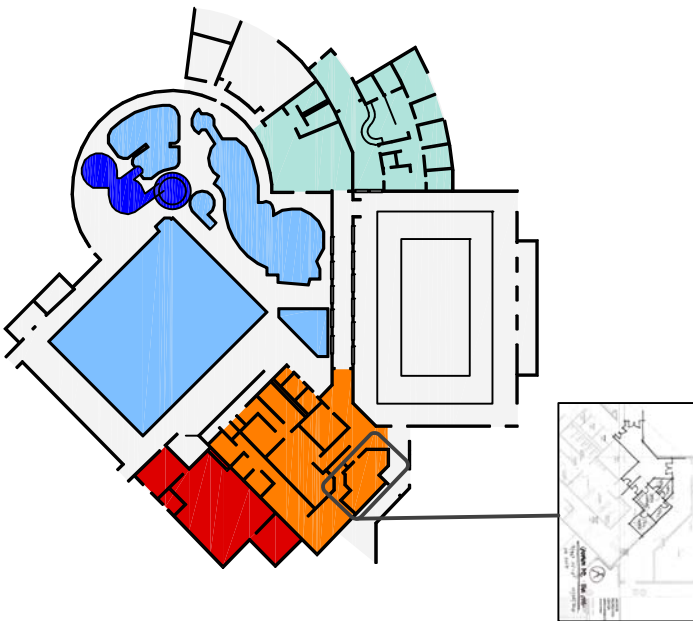

The Recreation Center was built in 1994, and much of the infrastructure and amenities are original. In order to ensure the center is vibrant and sustainable for future residents and guests, the department is seeking to re-invest in the existing facility. Proposition #5 requests funds to make repairs, replace equipment, and re-construct elements of the center.

WHAT IS THE COST

- * Leisure Pool Re-plaster (\$44,000)
